

BOOTSTRAP ASSIGNMENT

- Start your page by using the bootstrap 4 boilerplate template.
 - Now modify it to include the following:
 - A container
 - Jumbotron with overwritten CSS for its background color.
 - Mixed mobile and desktop grid system to create a dynamic and flexible layout.
 - Top Navigation (customize color and link text)
 - One CTA button
 - Add two images to your page.
 - H1, H2, H3 tags
 - Display class
 - Lorem ipsum text.
- +5 Bonus points for making the content creative!**

~Submit via Github.

The first thing you will need to do is set up your project folder in:

- Desktop> class-projects> yourname-bootstrap-assignment
- yourname-bootstrap-assignment
- index.html
- images
